Methods of assets and liabilities valuation

1. **Fixed assets and intangible assets** are covered by the analytical quantity and value register. They are valued according to acquisition prices or manufacturing cost decreased by depreciation and amortization write-offs in proportion to the period of their utilization, and also by the permanent impairment write-offs.
Fixed assets and intangible assets with the initial value of PLN 3,500 and below PLN 3,500 are amortized once, in the month following the month in which they were put into use. Fixed assets and intangible assets with the initial value of more than PLN 3,500 are amortized using the straight-line method, starting from the month following the month in which they were put into use according to the following rules:
 - computer software - 2 years
 - cost of completed research and development - 3 years
 - goodwill - 5 years
 - other intangible assets - 5 years
 - computer equipment as subject to technical progress is amortized at the rate increased by the coefficient of 2.0
 - means of transport as exploited more intensively in relation to average conditions and requiring special technical efficiency are amortized at the rate increased by coefficient of 1.4
 - fixed assets exploited on the basis of a leasing agreement are amortized at the rate resulting from the duration of the agreement
 - other fixed assets according to tax rates .
2. **Fixed assets under construction** are valued according to real costs incurred for the construction, assembly, adjustment and improvement of future fixed assets, decreased by the permanent impairment write-offs.
3. **Long term investments** are valued according to acquisition prices decreased by the permanent impairment write-offs.
4. **Stocks** including materials, commercial goods, finished products and work in progress are valued according to the following rules:
 - a) **raw materials and goods** according to real purchase prices increased by duty in case of imports. Expenditure in the year is valued according to the following principles:
 - goods identified by serial numbers according to the purchase price of those goods;
 - materials and goods not identified by serial numbers according to the FIFO principle „first in, first out“.
 - b) **finished products** according to the real and direct manufacturing costs.
Within the reporting period, the turnover of finished products takes place according to bookkeeping prices. At the end of the reporting period the evaluation is corrected for deviations in relation to real and direct manufacturing costs.
 - c) **production in progress** is valued according to real and direct manufacturing costs of particular orders.
5. **Domestic receivables** are valued according to the nominal value set at their beginning. Receivables in foreign currencies at balancing date are valued at the average exchange rate set for a given currency by the National Bank of Poland.
At balancing date the receivables and claims are indicated in the value corrected by revaluation write-offs in the following cases: .

- brought before the court - 100% write-off;
 - receivables from entities in liquidation - 100% write-off;
 - receivables that have been overdue for over half a year - 100% write-off.
6. **Short-term financial assets are priced at market value.** Results of the differences between the priced value at the balancing day and the acquisition price regard revenues or financial costs.
Domestic cash is valued at nominal value.
Cash in foreign currencies at the balancing day is valued at the average exchange rate set for a given currency by the National Bank of Poland.
7. **Primary capital (share capital)** is valued at the nominal value, in accordance with the entry in the National Court Register.
8. **Supplementary capital** is priced at the nominal value resulting from capital increases and decreases.
9. **Revaluation capital** is valued at nominal value resulting from capital increases and decreases.
10. **Provisions for liabilities** include:
- a) **Provisions for retirement benefits** valued at the balancing day according to the following formula:
the number of employees without the settled right to retirement at the balancing day x average monthly salary in the company x likelihood indicator of retirement severance payment, differentiated by the employee's age:
- | | |
|----------------|------|
| up to 25 years | 5% |
| 26-30 years | 10% |
| 31-35 years | 20% |

Remaining information:

- 1. A concise description of important achievements or failures of the issuer during the period which this report concerns, including the list of the most important events regarding them.**

The results of research conducted by PMR Publications suggest that the IT market is slowly recovering from the crisis. IT solution providers have achieved better results in 2010 related to the general improvement of the macroeconomic situation. A significant increase in IT solution orders has been particularly visible in the public and financial sectors, which has also been reflected in the revenues of Talex Company. The research shows that as many as 83% of the surveyed companies expect growth of the IT market; the respondents also forecast a double-digit growth rate as early as in 2011. It is also possible that the market will grow faster than the forecasts indicate because many IT investments, suspended after 2009 due to the global crisis, are either being currently implemented or they are to be implemented in the nearest future.

Talex Company's sales results in 2010 confirm a clear improvement on the IT market. The Company's revenues from sales in 2010 amounted to PLN 105,836 thousand and they are

about 71% higher compared to 2009.

Revenues from product sales in 2010 amounted to PLN 37,121 thousand, and they are 33% higher compared to 2009. The margin on product sales increased as well, from 23.6% in 2009 to 25.8% in 2010.

The level of revenues from sales of goods and materials increased significantly, and, after four quarters of 2010, it is twice as high (about 102%) as it was in the same period in 2009. The Company's share of goods and materials sales in total sales in 2010 increased as compared to the same period of the previous year (65% compared to 55%). Another visible factor is the increase in goods and materials sales margin in 2010, compared to the previous year – then the margin in goods and materials sales was 6.3%, while in the reported period it was 7.3%.

The Company completed 2010 with the net profit equal to PLN 2,244 (2009 was completed with a loss for the Company).

In October 2010 the Company announced a series of orders received from Bank Zachodni WBK seated in Wrocław, which together meet the criterion of a significant agreement. The total value of orders received amounted to PLN 4.1 million net. The largest of these orders was an order of 7th October 2010, with a net worth of PLN 1.3 million. The contract involved the delivery of IT solutions.

In November 2010 the Company, as the Representative of Talex SA in Poznan and PC Factory SA in Warsaw Consortium, signed a deal with the Kujawsko-Pomorskie Voivodeship in Torun. The contract covered the delivery of IT solutions with a total gross value of PLN 29 million.

In December 2010 the Company announced a series of subsequent orders received from Bank Zachodni WBK with its headquarters in Wrocław, which together met the criterion of a significant agreement. The total value of orders received amounted to PLN 10.1 million net. The largest of these contracts was an order dated 6th December 2010, with a net worth of PLN 1.6 million. The contract concerned the provision of IT solutions.

2. A description of factors and events, particularly of untypical ones, having a significant influence on the financial results achieved;

In the reported period there were no untypical events that might significantly influence the financial results.

3. Explanations concerning the seasonality or periodicity of the issuer's activity in the presented period;

Typically, the company records highest sales in the last quarter of the year, which is related to the execution of investment budgets by the Company's key clients at the end of the year. A similar pattern could be noticed in the fourth quarter of 2010. An exception to this rule were the results achieved by the Company in the fourth quarter of 2009, when the regularity was disrupted due to the ongoing economic recession.

4. Information concerning the issue, redemption and repayment of debt and capital securities;

In the presented period no issue, redemption or repayment of debt and capital securities took place.

5. Information concerning the paid (or declared) dividend, jointly and calculated per one share, with the division into ordinary and preference shares;

In the presented period there was no payment of dividend. The General Assembly of Shareholders held on 29 April 2010, due to the loss in 2009, decided to cover this loss from supplementary capital.

6. Indication of events, which took place after the day for which the abridged quarterly financial statement was drawn up, not included in this statement, but which could substantially influence the future financial results of the issuer.

After 31st December 2010, that is, after the quarterly report had been prepared, no events that could considerably affect the Company's future financial results occurred.

7. Information concerning changes in contingent liabilities or assets, which have taken place since the end of the last financial year.

For the day of 31.12.2010 the value of guarantees issued by banks on the order of TALEX S.A. in relation with the executed agreements amounted to PLN 5,459 thousand. Contingent liabilities included performance bonds, bid bonds, bonds on account of warranty and guarantee and payment guarantees. Performance bonds comprised about 85% of the guarantees issued on 31.12.2010. The purpose of those bonds is to secure the claims which could arise in the case of improper performance of an agreement. Nearly 3% comprised of payment guarantees, whose purpose is to guarantee the timely payment of monetary liabilities, about 6% comprised of bonds on account of warranty and guarantee, and about 6%, for the last day of December 2010, comprised of bid bonds.

The revenue derived by the Company in the sale of services will mainly be affected by revenues from the implementation of permanent, long-term multi-annual contracts with the Company's customers, in particular contracts for the provision of IT infrastructure maintenance and support services, as well as the Company's developing outsourcing services implemented on the basis of its own Data Center.

Also the co-financing agreement from March 2010 concluded by Talex with the Polish Agency for Enterprise Development with its registered office in Warsaw will have an influence on the Company's future financial results. The subject matter of the agreement was to provide subsidies towards the project carried out by the Company and concerning the creation of an application supporting the exchange of information between the computer systems of the Company and its customers. The maximum value of the granted subsidy amounts to PLN 1.14 million net. The subsidy has been granted to the Company under the operation 8.2 "Providing a support for the implementation of B2B electronic business, priority axis 8: Information society – the increase of the innovativeness of the economy" from the Innovative Economy Operational Programme 2007-2013.

A factor that may affect the Company's future results is the realization of the project entitled 'Implementation of B2B electronic business by the implementation of a new system supporting the enterprise management in Talex' which consists of the implementation of adjusted to the Talex ERP system's needs - Microsoft Dynamics AX 2009, in particular the module AIF - Application Integration Framework, allowing for the integration with business partners of the Company. Furthermore, the system will support the processes in the area of accounting, trade including invoicing, logistics and warehouse management, project management, asset management and controlling. New solutions will also facilitate the expansion to foreign markets, the increase of the financial operations' efficiency and strategic planning.
